

exclusive IonXR2 nanoceramic material

Install BatMax Get More Battery Life

BatMax helps your battery to maintain its charge longer

simply installed inside the battery compartment

Easy to use
Installed in seconds

BatMax is the first battery life extender and charging accelerator on the market.

Made of IonXR2, an exclusive nanoceramic composite material, resulting from years of laboratory research, BatMax unblocks and regulates the flow of ions and reduces energy losses by the creation of an oscillation frequency with an electromagnetic radiation cavity that generates a stream of negative ions.

Specifically created for the latest electronic devices and mobile phones with color displays, cameras, Internet access, Bluetooth, games and enhanced multimedia functionalities which require high energy, BatMax answers the battery life demand of any modern device.

BatMax is installed in seconds without tool : Simply install BatMax inside the battery compartment with the active white side facing the battery.

BatMax is safe and compatible with any type of battery and :

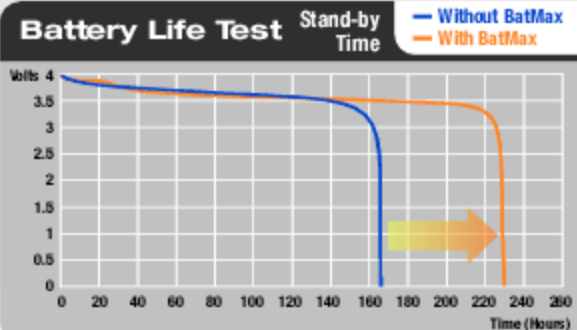

- Extends the battery life from 35% up to 2X.
- Offers more talk time and Provides a longer stand-by-time.
- Accelerates the charging time (to a full charge) up to 40% faster.
- Prolongs the battery total life span up to (number of charging cycles).
- Regenerates the old batteries and Restores performances.
- Eliminates the battery "memory" effect.
- Protects the battery from electrical variations.
- Eco-friendly : By reducing the frequency and duration of charges, BatMax helps to reduce the electrical needs and the chemical pollution due to millions of dead batteries.
- Saves money : By delaying the need for purchasing new batteries.

BatMax models are available for :

- Mobile phones, 3G mobile and Smartphones.
- Laptop computers, Notebooks.
- PDA's, mobile GPS and handy terminals.
- Game consoles, MP3 and CD players.
- DVD and MPEG4 players, PMP's and Portable LCDTV's.
- Digital still cameras and camcorders.
- Cordless phones and remote control units.
- Walkie talkies, transceivers and pagers.

- Extends the battery life
- Accelerates charging time
- Prolongs the battery life span
- Restores the original performance
- Protects the battery
- Saves money

BatMax performance may vary and depends on several factors: Type of device, brand, model - type of battery, age, status (# cycles), external temperature and environmental conditions.

Battery Compatibility

Li-Ion Li-Po Ni-Cd Ni-Mh

BatMax Models

BatMax / Mobile Phone
45 X 25 mm
Model #: BA/M-01
UPC: 185967000017

BatMax / PDA
78.75 X 56.75 mm
Model #: BA/P-01
UPC: 185967000055

BatMax / 3G Mobile Phone
45 X 25 mm
Model #: BA/M-03
UPC: 185967000024

BatMax / Game Console
52.5 X 32.5 mm
Model #: BA/G-01
UPC: 185967000062

BatMax / Smartphone
56.75 X 35 mm
Model #: BA/S-01
UPC: 185967000031

BatMax / Digital Camera
35 X 32.5 mm
Model #: BA/C-01
UPC: 185967000086

BatMax / Notebook
113.5 X 78.75 mm
Model #: BA/N-01
UPC: 185967000048

BatMax / Audio-Video
56.75 X 35 mm
Model #: BA/A-01
UPC: 185967000109

BatMax is individually packaged in a convenient and compact sealed clamshell that contains a tri-folded insert card with a 3 languages installation manual (English / Spanish / French) (US domestic packaging).

Localized packaging are also available on demand (French, spanish, italian, german, dutch,...).

A separate insert card can be inserted for an additional language.

Insert Card Dimensions
Closed 160 x 98 mm
Opened 160 x 293 mm (97 x 98 x 98)

BatMax is also available in bulk (without packaging) or unmarked for OEM's and industrials. Customization with a private label and/or special dimensions are possible on demand. Please, contact our OEM dept.

BatMax is an green eco-friendly product and contributes to the protection of the global environment.

BatMax's technology helps to reduce the chemical pollution due to millions of dead batteries. By improving the battery life and reducing electrical needs, BatMax will naturally contribute to the prevention of the energetic demand.

Remember... Saving Energy Prevents Pollution.
